QA Analyst – Manual Test Engineer

Hardworking and helpful customer service worker with over two years of experience in manual software testing. I have tested different parts of software like new updates, full systems, and user experience. I use tools like Postman, Minio, Neo4j, and Kibana to check if the system and data are working correctly. Right now, I'm learning automation testing using Java, Selenium WebDriver, TestNG, and Maven to make testing faster and better.

WORK EXPERIENCE

Wipro Limited – Bangalore, India

06/2023 – 04/2025

QA Manual Tester - Nokia

Checked that data was properly shared and working across different environments using Minio, Postman, Neo4j, and Kibana, making sure everything was connected and flowing correctly.

- Tested data flow and system performance across different environments using tools like Minio, Postman, Neo4j, and Kibana to make sure everything worked smoothly and correctly.
- Checked the data stored in Minio and API responses through Postman to confirm all required information was properly saved and matched system needs.
- Verified relationships between data in Neo4j and Kibana to ensure objects were correctly connected based on business rules.
- Performed regression, sanity, and end-to-end testing to confirm new changes did not break existing features and the overall system worked as expected.
- Collected logs, screenshots, and test results to support defect analysis and create clear test reports.
- Worked closely with developers to find and fix issues in system setup, and helped understand the root causes of problems.
- Took part in defect review meetings, created bug reports in JIRA, and helped test fixes during UAT and regression cycles.
- Helped plan and run User Acceptance Testing (UAT), working with users to check if the software met business needs and was ready to go live.
- Led complete testing of full system workflows to make sure all parts of the software worked well together from start to finish.
- Supported new team members by sharing knowledge, helping with tasks, and ensuring they understood the testing process.

EDUCATION

Swarnandhra College of Engineering and Technology - Narsapur, Andhra Pradesh

Bachelor of Technology – Computer Science, May 2022.

PROFESSIONAL SKILLS

- **Testing Skills:** Proficient in Manual Testing, Federation Testing, Regression Testing, Sanity Testing, User Acceptance Testing and End-to-End Testing.
- **Programming Language:** Core Java
- **Tools & Utilities:** Postman, Neo4J, Git, GitHub and Jira
- **Operating System:** Comfortable working in both Microsoft Windows 10 and Mac OS X.
- **Communication:** Excellent communication skills with a focus on team-building and customer relations.
- **Organizational Skills:** Outstanding organizational, multitasking, and problem-solving abilities.

LANGUAGE COMPETENCIES

- Telugu: native language
- English: intermediate (speaking, reading, writing)
- Hindi: intermediate (speaking, reading); basic (writing)
